ROBLON – INTERIM REPORT FOR Q3 2017/18 COMPANY ANNOUNCEMENT NO. 8/2018

Interim report - Q3 2017/18 (the period 1 November 2017 - 31 July 2018)

Full-year guidance for 2017/18 maintained

The Board of Directors of Roblon A/S has today considered and approved the interim report for Q3 2017/18

Summary of Q1-Q3 2017/18 for the Roblon Group:

- The order intake was DKKm 178.2 (DKKm 171.4).
- The order book at 31 July 2018 stood at DKKm 71.4 (DKKm 52.7).
- Revenue was DKKm 156.9 (DKKm 146.4).
- Operating profit (EBIT) was DKKm 5.9 (DKKm 18.6).
- Profit before tax was DKKm 8.2 (DKKm 20.3).
- Revenue and operating profit/loss for Q3 2017/18 were adversely impacted by postponed orders in the Composite product group.
 Some of these orders have been placed after the end of Q3 2017/18 and will contribute to the Group's revenue and operating profit for Q4 2017/18.
- Profit after tax for continuing and discontinued operations was DKKm 13.3 (DKKm 20.0).
- In April 2018, the Group invested DKKm 13.7 in acquisition of business activities in the USA, and in that connection signed a three-year project contract with an expected revenue potential of USDm 15-20. The project contract includes an option to extend the delivery of fibre-based solutions for the wind turbine industry beyond the three-year project period.

- As stated in Company Announcement no. 2/2018, Roblon concluded an agreement in February 2018 to sell the greater part of the Roblon Engineering segment. Profit/loss from the divested business is reported under discontinued operations, and comparative figures have been restated.
- In Company Announcement no. 7/2018, Roblon downgraded its guidance for the 2017/18 financial year for continuing operations. This guidance is maintained: Revenue of around DKKm 235 (2016/17: DKKm 198.6), compared with the previous guidance of DKKm 255, and profit before tax of around DKKm 20 (2016/17: DKKm 21.6), compared with the previous guidance of DKKm 28.

¹ The interim report has not been audited or reviewed by the company's auditors.

The ratios are defined in the accounting policies section on page 82 of the 2016/17 annual report.

² The ratio is calculated on a full-year basis.

Management's review

Consolidated income statement

Effective at 1 November 2017, the Roblon Group has the following product groups:

- FOC (comprising optic cable components and cable machinery for the Fibre Optic Cables industry)
- Composite (comprising composite materials for onshore and offshore industries)

Revenue and operating profit/loss for Q3 2017/18 were adversely impacted by post-poned orders in the Composite product group. Some of these orders have been placed after the end of Q3 2017/18 and will contribute to the Group's revenue and operating profit in Q4 2017/18.

The Group's revenue and performance for Q1-Q3 2017/18 did not develop as expected due to postponement of projects in the Composite product group. This and an expected change in the product mix caused Management to downgrade the guidance for the 2017/18 financial year for continuing operations in Company Announcement no. 7/2018. The revenue guidance for the Group was adjusted from DKKm 255 to DKKm 235 and the guided profit before tax was adjusted from DKKm 28 to DKKm 20.

Order intake

The Group's order intake was DKKm 178.2 for Q1-Q3 2017/18, an improvement of 4.0% on the year-earlier period but, as previously mentioned, lower than expected.

The book-to-bill ratio was 113.6% for Q1-Q3 2017/18, compared with 117.1% in the year-earlier period.

In Q3 2017/18, the Group realised an order intake of DKKm 96.2, against DKKm 79.6 in the year-earlier period. The DKKm 16.6 (net) improvement consisted of a DKKm 2.5 decrease in the FOC product group and a DKKm 19.1 increase in the Composite product group.

The adverse development in FOC comprised an improvement in the US market and a decline in the European market. The improvement in Composite was a combination of a large order intake from the wind turbine industry and a declining order intake due to the postponement of projects in other Composite customer groups.

Revenue

Group revenue in Q1-Q3 2017/18 was DKKm 156.6, corresponding to a year-on-year increase of 7.2% or DKKm 10.5.

The (net) improvement of DKKm 10.5 was made up of a DKKm 24.0 improvement in FOC, partially offset by a DKKm 13,5

decline in Composite due to projects being postponed to later in the financial year and next financial year, respectively.

Organic growth was negative at 13.4% or DKKm 19.7, mainly as a result of the previously mentioned postponement of projects by Composite customers.

Revenue dropped to DKKm 48.4 in Q3 2017/18 from DKKm 59.8 in the year-earlier period. Of this DKKm 11.4 decline, DKKm 4.0 was attributable to a decline in FOC and DKKm 7.4 to a decline in Composite due to the postponed projects.

Gross profit and gross margin

The Group's gross profit amounted to DKKm 74.4, down DKKm 3.4 compared with Q1-Q3 2016/17. The gross margin for Q1-Q3 2017/18 amounted to 47.4%, a decline compared with last year's gross margin of 53.1% that was due to a changed revenue mix.

Other external costs

Other external costs amounted to DKKm 26.3 for Q1-Q3 2017/18, a year-on-year increase of DKKm 3.9. Last year's figure was affected by transaction costs of DKKm 4.5 incurred in connection with acquisitions in the USA. In 2017/18, transaction costs of DKKm 0.5 were expensed relating to additional acquisitions in the USA. The underlying increase in other external costs was DKKm 8.2, most of which could be ascribed to the US subsidiary, which was

recognised for a four-month period in last year's Q1-Q3 income statement.

Staff costs

Staff costs amounted to DKKm 38.1 in Q1-Q3 2017/18, against DKKm 31.5 in the year-earlier period. The DKKm 6.6 increase was due to planned recruitments to execute the strategy of generating growth through continuously increasing sales and development activities combined with acquisitions of relevant activities in the core business.

Depreciation, amortisation and impairment

The Group's depreciation, amortisation and impairment for Q1-Q3 2017/18 amounted to DKKm 7.9, a year-on-year increase of DKKm 2.2. The increase related to depreciation, amortisation and impairment of intangible assets and property, plant and equipment added in connection with the business acquisition in the USA.

Operating profit/loss (EBIT)

For Q1-Q3 2017/18, operating profit (EBIT) was DKKm 5.9, against DKKm 18.6 in the year-earlier period. For Q3 2017/18, the Group realised an operating loss (EBIT) of DKKm 4.9, against an operating profit of DKKm 7.4 for the same period last year. The Q3 operating loss was due to reduced revenue and earnings as a result of the postponed order intake in Composite and the change in the product mix.

Net financial items

Net financial items for Q1-Q3 2017/18 amounted to net income of DKKm 2.3, against DKKm 1.7 in the same period last year.

Profit before tax from continuing operations

Profit before tax from continuing operations for Q1-Q3 2017/18 amounted to DKKm 8.2, against DKKm 20.3 in the year-earlier period.

Tax

Tax is calculated at a rate of 22% of profit for the year before tax.

Discontinued operations

Profit from discontinued operations after tax was DKKm 6.9 for Q1-Q3 of 2017/18 and related to the operating results for the greater part of the Roblon Engineering business segment, which was sold effective at 23 February 2018, and net proceeds from the sale. For Q1-Q3 2016/17, profit from discontinued operations amounted to DKKm 4.4 and related to the sale of Roblon Lighting.

Profit for the period

Profit for Q1-Q3 2017/18 was DKKm 13.3, against DKKm 20.0 in the year-earlier period.

Consolidated balance sheet

Total assets for the Group amounted to DKKm 276.0 at 31 July 2018 – a year-onuear decrease of DKKm 19.3.

The Group's working capital at 31 July 2018 was DKKm 59.5, reduced by DKKm 34.2 from DKKm 93.7 at 31 July 2017.

Total investment in product development amounted to DKKm 2.3 for Q1-Q3 2017/18, against DKKm 0.5 for the same period last year. Investment in the current ERP project amounted to DKKm 2.0. Investments in property, plant and equipment declined to DKKm 4.7 in Q1-Q3 2017/18 from DKKm 8.0 in the year-earlier period. DKKm 2 was invested in a new production line in the US company to facilitate the sale of new complementary products to the Group's FOC customers on the US market.

The Group's equity stood at DKKm 246.8 at 31 July 2018, against DKKm 252.1 at 31 July 2017. The equity ratio at 31 July 2018 was 89.4%, against 85.4% at the same date last year.

Consolidated cash flows

Cash flow from operating activities in Q1-Q3 2017/18 amounted to DKKm 32.7, compared with DKKm 15.1 in the same period last year.

Total cash flow from investing activities was an outflow of DKKm 19.1 in Q1-Q3 2017/18, against an outflow of DKKm 8.7 in the year-earlier period. Acquisition of subsidiaries and operations was an outflow of DKKm 13.7 in Q1-Q3 2017/18, against an outflow of DKKm 27.3 in the year-earlier period.

Cash flow from financing activities, which related to dividend payments, was an outflow of DKKm 17.9, in line with the same period last year.

Capital resources

At 31 July 2018, marketable securities and net cash amounted to DKKm 121.8, against

DKKm 85.3 at 31 July 2017. In addition to this, Roblon has an undrawn credit facility of DKKm 10.0 with the Group's bankers.

Matters of note in Q1-Q3 2017/18

Roblon concluded an agreement, effective at 23 February 2018, to sell the greater part of the Roblon Engineering business segment, comprising the sale of business activities related to rope-making equipment, twisters and winders. Company Announcement no 2/2018 "Roblon enhances focus on the Industrial Fiber business segment" provides details about the transaction.

Management's resolution to initiate the above-mentioned sale was made at a board meeting in Roblon held on 19 December 2017.

The Group's profit from the divested business until the selling date is reported as discontinued operations, and comparative figures have been restated.

After the sale of the greater part of the Roblon Engineering business segment, Roblon will report on a single segment. Revenue will consequently be disclosed by product groups in the notes to the interim and annual reports, and the two product groups are:

- FOC (optic cable components and cable machinery for the Fibre Optic Cables industry)
- Composite (composite materials for onshore and offshore industries)

In April 2018, the Group made additional investments in US business operations to complement similar investments in April 2017. Roblon invested in additional, complementary production capacity, production technology for special fibre-based solutions and customer relations in the wind turbine industry. In connection with the DKKm 13.7 investment, Roblon signed a three-year project contract with potential revenue of up to USDm 15-20 and with an option for extension beyond the three years.

Outlook for 2017/18

In Company Announcement no. 7/2018, Roblon downgraded its guidance for the 2017/18 financial year for continuing operations. In the announcement, the Company guided revenue of around DKKm 235 (2016/17: DKKm 198.6), compared with the previous guidance of DKKm 255, and profit before tax of around DKKm 20 (2016/17: DKKm 21.6), compared with the previous guidance of DKKm 28.

Following Roblon's establishment in the USA in 2017, demand for the Company's products for the fibre optic cables industry has been steadily growing, driven by substantial market growth combined with an increased sales drive and focus on selected strategic customers. This positive trend is expected to continue. Roblon US also finds that the demand for fibre-based composite solutions for the wind turbine industry is greater than was anticipated when the above-mentioned investment was made earlier in the year.

As a result, Roblon US has an ever-growing need to hire new employees, which is becoming increasingly difficult given the falling US unemployment rate. Q3 2017/18 was marked by the phasing-in of new employees and efforts to increase capacity utilisation, and at the beginning of Q4 2017/18 production is increasing, which will enable the Company to utilise the new opportunities for revenue and earnings growth.

After the completion of the Q3 2017/18 interim report, the Group has received orders from the customers in the Composite product group responsible for significant postponement of Roblon's expected order intake. The Company has moreover been advised of additional orders reaching into the 2018/19 financial year.

Roblon is aware that its customers are part of a wider value chain that is subject to ongoing changes, and that this may affect the intake and execution of orders.

After Q1-Q3 2017/18, Management maintains its full-year guidance for 2017/18 of revenue of around DKKm 235 and profit before tax of around DKKm 20.

Forward-looking statements

Roblon's sales are characterised by a structure based on project sales. This makes it difficult at any given time to forecast future revenue for a specific period, i.e. three-month, six-month or 12-month periods.

The above forward-looking statements, in particular revenue and earnings projections, are inherently uncertain and subject to risk. Many factors are beyond Roblon's control and, consequently, actual results may differ significantly from the projections expressed in interim and annual reports. Such factors include, but are not limited to, changes in market and competitive situation, changes in demand and purchasing behaviour, foreign exchange and interest rate fluctuations and general economic, political and commercial conditions.

Statement by the Management

The Board of Directors and Executive Management have today considered and approved the interim report of Roblon A/S for Q3 2017/18 and the period 1 November 2017 to 31 July 2018.

The interim report, which has not been audited or reviewed by the company's auditor, is presented in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and additional requirements under the Danish Financial Statements Act.

It is our opinion that the interim financial statements provide a true and fair view of the Group's assets, liabilities and financial position as of 31 July 2018 as well as of the results of the Group's activities and cash flows for the period 1 November 2017 to 31 July 2018.

Furthermore, in our opinion the management's review includes a fair review of the development and performance of the Group's business, results for the period and the Group's financial position together with a description of the principal risks and uncertainties that the Group faces.

Notes to the financial statements

- 1. Accounting policies
- 2. Estimates
- 3. Seasonality
- 4. Segment reporting
- 5. Sale of business operations
- 6. Acquisition of business and operations

Note 1 - Accounting policies

The interim report is presented in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and Danish disclosure requirements for listed companies. No interim report has been prepared for the parent company.

The accounting policies applied in the interim report are consistent with those applied in Roblon's annual report for 2016/17, which was prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU and additional Danish disclosure requirements for annual reports of listed companies. For a more detailed description of the accounting policies, see the annual report for 2016/17.

New or amended standards and interpretations which have come into force effective for the financial year 2017/18 have no effect on recognition and measurement.

Note 2 - Estimates

The preparation of interim reports requires Management to make accounting estimates that will affect the accounting policies and recognised assets, liabilities, income and costs. Actual results may differ from these estimates.

The most significant estimates made by Management in applying the Group's accounting policies and the most significant uncertainties associated therewith in preparing the consolidated interim report are identical to those applying to the preparation of the annual report for 2016/17.

Note 3 - Seasonality

The Group's activities in the interim report have not been affected by seasonal or cyclical fluctuations.

Note 4 - Segment reporting

In 2015/16, Roblon changed its segment reporting to comprise three segments: Industrial Fiber, Lighting and Engineering. During the financial year 2016/17, Roblon Lighting was divested and, as announced in Company Announcement no. 2/2018, the greater part of Roblon Engineering was divested on 23 February 2018 effective 14 March 2018.

As a consequence of these two divestments, the Group's segment reporting will comprise a single segment as from 1 November 2017, and additional information on external revenue by product groups will be disclosed in the notes to the financial statements.

Effective at 1 November 2017, the Roblon Group has the following product groups:

- FOC (comprising optic cable components and cable machinery for the fibre optic cables industry)
- Composite (comprising composite materials for onshore and offshore industries)

| DKKm | Q3 2017/18 | Q3 2016/17 | Q1-Q3 2017/18 | Q1-Q3 2016/17 | Full year 2016/17 |
|----------------------------------|---------------|---------------|------------------|------------------|----------------------|
| 4. Segment reporting, continued | | | | | |
| Revenue from external customers: | | | | | |
| By product groups | | | | | |
| FOC | 29.9 | 33.1 | 94.1 | 70.0 | 101.7 |
| Composite | 18.5 | 26.7 | 62.8 | 76.4 | 96.9 |
| Total | 48.4 | 59.8 | 156.9 | 146.4 | 198.6 |
| | | | | | |
| By geographical markets | | | | | |
| Denmark | 0.5 | 2.2 | 8.6 | 5.4 | 8.1 |
| United Kingdom | 7.2 | 8.4 | 28.8 | 27.4 | 35.5 |
| Rest of Europe | 13.4 | 13.8 | 45.3 | 37.2 | 49.9 |
| Asia | 4.9 | 3.5 | 10.2 | 9.2 | 13.6 |
| Brazil | 0.7 | 18.2 | 20.0 | 46.6 | 59.9 |
| Latin America | 3.8 | 7.0 | 12.3 | 12.0 | 17.9 |
| North Amerika | 17.9 | 6.7 | 31.7 | 8.6 | 13.7 |
| Total | 48.4 | 59.8 | 156.9 | 146.4 | 198.6 |

Of the Group's non-current assets, DKKm 44.9 were located in Denmark (2016/17: DKKm 42.7) and DKKm 25.7 in North America (2016/17: DKKm 17.0).

The Group's revenue largely derived from the sale of goods.

Of the Group's total revenue for Q1-Q3 2017/18, DKKm 15.9 could be attributed to one major customer (2016/17: DKKm 24.0 attributable to two customers). Accordingly, revenue from these individual customers constituted more than 10% of the Group's total revenue for the periods in question.

The USD/DKK exchange rate development did not affect the Group's reported revenue for Q1-Q3 2017/18 relative to the expected USD/DKK exchange rate of 625.

Notes to the financial statements

Note 5 - Discontinued operations

Effective at 23 February 2018, Roblon concluded an agreement to sell the greater part of the Roblon Engineering business segment, comprising the sale of business activities related to rope-making equipment, twisters and winders. Information on the transaction can be found in Company Announcement no 2/2018 "Roblon enhances focus on the Industrial Fiber business segment". The profit from these operations until 23 February 2018 and from the divestment of the activities is reported as discontinued operations, and comparative figures have been restated. Moreover, the restated comparative figures for the quarters and full year 2016/17 comprise the profit/loss of Roblon Lighting, which was divested in 2017 and was also reported as discontinued operations for this period.

Note 6 – Acquisition of business and operations

In Company Announcement no. 4/2018, Roblon announced its acquisition of assets from Neptco Inc, Hickory, North Carolina, part of the listed US Chase Corporation group.

In April 2017, Roblon acquired business operations related to the fibre optic cables industry from the Chase Group. In order to complete the acquisition, Roblon A/S established a US company, Roblon US Inc., Hickory, North Carolina. Roblon US Inc. has made additional investments in production plant, licences and inventory for the production of fibre-based products for the wind turbine industry and has signed a three-year project contract with Ria Blades, owned by Germany-based wind turbine manufacturer Senvion. Under the contract, Roblon will supply parts for the Senvion Group's rotor blade production with potential revenue over the three-year contract period of up to USDm 15-20. The contract provides an option for extension beyond the three years.

The acquisition of additional, complementary production capacity and the signing of the contract with the Servion Group were made possible by Roblon's establishment in the USA in 2017. Parts of Roblon's existing production capacity as well as the newly acquired production plant relate to production technology for special fibre-based solutions that target the fibre optic cables industry but can also be applied in other industries – in this instance the wind turbine industry.

The acquisition price was approximately DKKm 13.7 and was paid in cash.

The takeover balance sheet has been provisionally calculated as follows:

| DKKm | Recognised value at takeover | | |
|--|------------------------------|--|--|
| Intangible assets (technology licences) | 3.0 | | |
| Intangible assets (list of customers and contracts) | 5.7 | | |
| Property, plant and equipment (production equipment and technical plant) | 1.8 | | |
| Inventories | 3.2 | | |
| Acquired net assets (total acquisition price) | 13.7 | | |

A preliminary identification of assets (and contingent liabilities) was performed in connection with the takeover, and these are recognised in the takeover balance sheet at fair value.

No deferred taxes or contingent liabilities are recognised in the preliminary takeover balance sheet.
